

ACCENTRONix

The access control system **that keeps you safe**

Product Introduction

Product Range

Cellswitch Infinity

- Control your gate with your mobile phone
- Dual sim
- Visitor One-Time-Pin with Keypad
- 10 000 Users
- Manage remotes from the cloud by connecting an ET NICE receiver
- Tag reader Interface

Cellswitch Nano

- Control your gate with your mobile phone
- Manage remotes from the cloud by connecting an ET NICE receiver
- Single sim
- Visitor One-Time-Pin with Keypad
- 10 Users
- Tag reader Interface

Wireless GSM Intercom Range

- Calls directly to your mobile phone.
- Dual sim
- Visitor One-Time-Pin
- 10 000 Users
- Manage remotes from the cloud with the built-in ET NICE receiver

Add-on Products

ET Nice RX2-Micro

- Manage all your ET Nice remotes online
- Restrict access for domestic and gardening service

ET Nice O2 Wireless Keypad

- Wireless
- One-Time-Pin Guest access
- Can be used for entrance or exit gate
- 15m Range
- Communicates with the ET Nice Receiver

Accentronix Wired Keypad

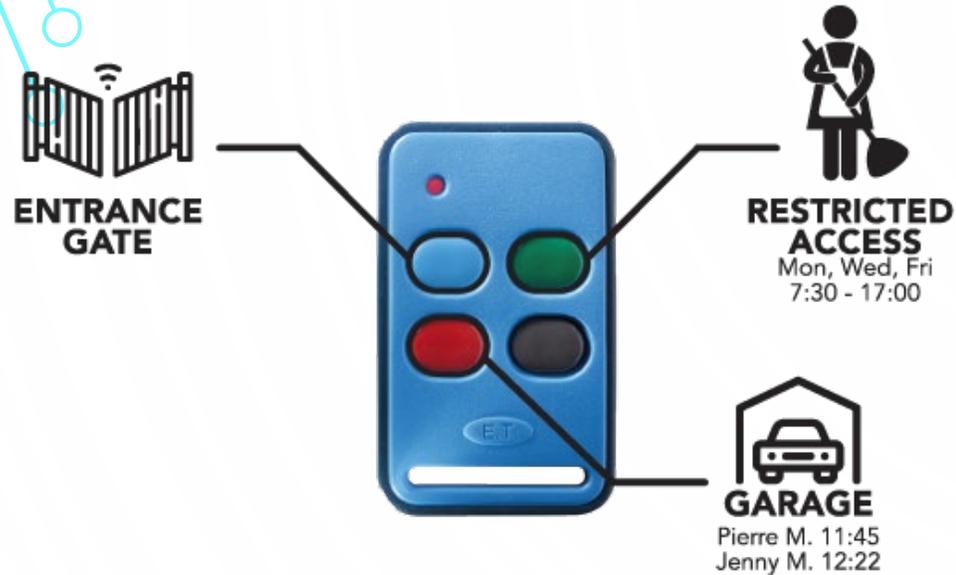

- Wired Keypad
- Backlit Keys
- 100m maximum cable length

Accentronix Tags

- Manage your tags online
- Restrict access of users of tags online
- Connects to any of our products

Manage your Remotes online

Link your remotes to the Cloud with our ET Nice integration

- Bulk learn remotes offsite
- Restrict access to specific days and times for specific users
- Easy to use and install
- Detailed log reports and access control notifications
- Simply connect an RX2-Micro (Accentronix) receiver to any of our devices
- Our Intercom systems already has a receiver built in.

Visitor Access Control

- Wireless Keypad
- 15meter Range

Visitor Access OTP

- Residents can use the Accentronix Smart Home app to invite visitors
- The visitor will receive a WhatsApp or SMS containing a one-time-pin as well as a Google maps link and instructions
- As soon as the visitor uses the pin the resident will receive a notification
- Visitors can be restricted to one entry and one exit or whole day access

Visitor Exit OTP feature

- An OTP will automatically be sent to the resident after they received a call from the intercom
- The visitor will then use this pin to exit the property
- This feature is only available on our Intercom range

- Wired Keypad
- 100meter range
- Backlit keypad

Accentronix Tags

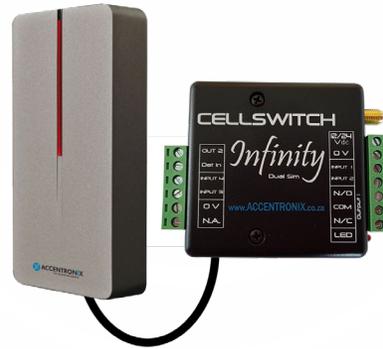

Mifare 13,56 MHz

Link your Tags to the Cloud for effortless user control

- Bulk learn Tags offsite
- Restrict access to specific days and times for specific users
- Easy to use and install
- Detailed log reports and access control notifications
- Simply connect the tag reader to any of our devices

Tag Readers

- Link multiple readers together over the cloud
- Tags will still work when the internet is down
- Seamlessly set up user restrictions to specific readers on a site
- Bulk learn and manage tags offsite

Typical Security Estate

Entrance Gate

Exit Gate

Visitor Exit OTP

Pedestrian Gate

Swimming pool

9AM – 8PM

Master & Slave setup

The diagram illustrates a Master & Slave setup. On the left, a laptop displays the ACCENTRONIX Cloud services interface. A double-headed arrow connects the laptop to the Master device, which is a Bellswitch Infinity unit. An arrow points from the Master device to the ACCENTRONIX Cloud services cloud. Two Slave devices, each consisting of a Bellswitch unit and a smartphone, are shown below. Arrows point from each Slave device to the cloud services. A red arrow points from the 'Linking devices together over the cloud' title to the 'Master & Slave setup' text.

- 🔑 Users, remotes and tags are only managed on the Master device.
- 🔑 Slave devices will automatically sync to the master device's User Access Control List
- 🔑 Each Slave device will still use their own unique device settings i.e. they will not use the Master device's settings.

Device Info Audio Settings Custom Features

- Enable Guardhouse Feature
- Enable Exit Button on Input 1
- Enable automatic PABX selection feature
- Ignore Gate Control commands while Gate Timers are active
- Remember output relay state when device lost power
- Enable Alarm Mode

These features allows you to add additional call functions to your intercom system like automatic selection on a PABX answering service and allowing residents to call to an intercom inside a guardhouse to speak to the guard.

Accentronix Smart Home app

Our Accentronix App is a great tool for any installer to use when in the field as well as for everyday use by a user.

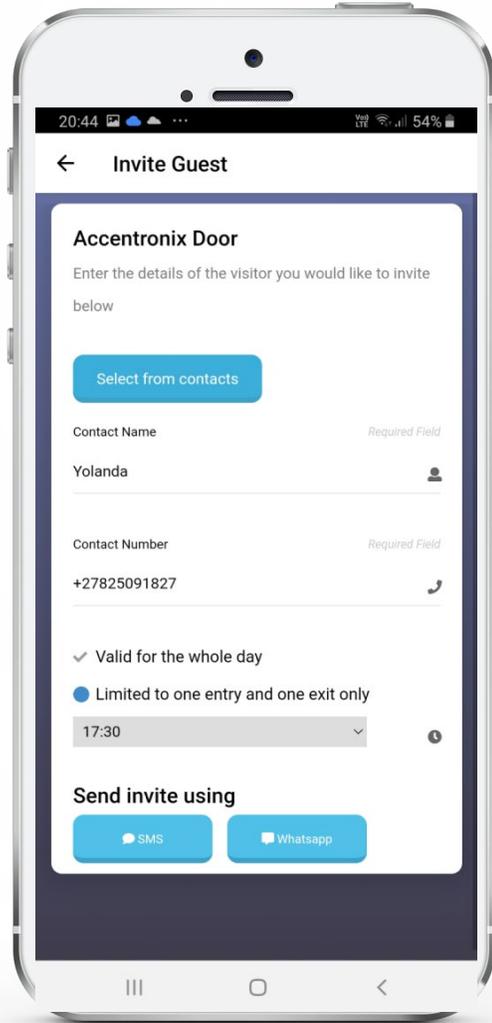

Installers can access the online portal for any setup changes.

Users can set up buttons for their devices to control and monitor all their devices.

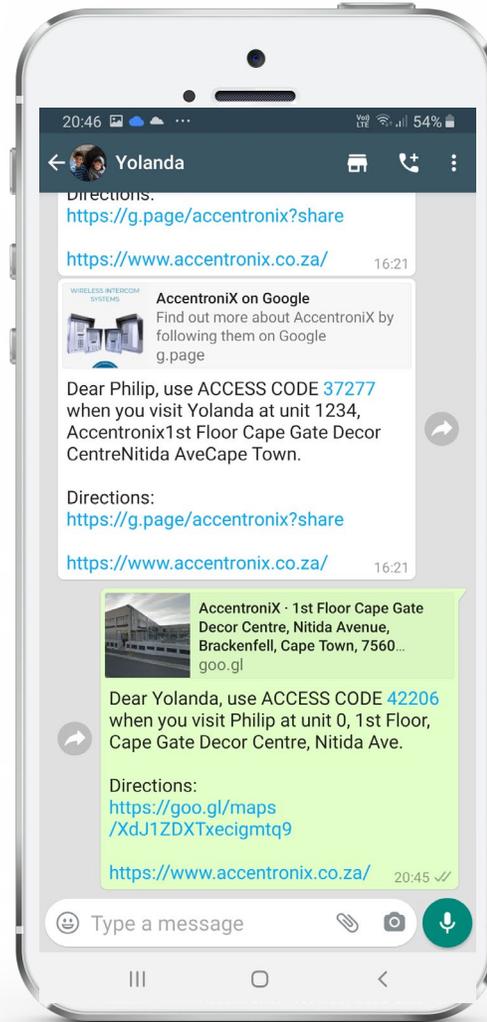

Our Accentronix Smart Home app will also send all your device notification so that you can see any alerts that come from your gate or electric fence.
